

CEE 589 Project

(15% of course grade)

You choose the topic.

Must be related to an atmospheric chemistry question / research area.

We will strike up a list of possible topics as a class at a later date.

Class presentations will be in mid-April.

[75%] 1. Class Presentation

15 minutes + ~5 minutes for questions

Clearly stated objective / title

Clarity of overheads

Clarity of talk

Conclusion / summary

Well researched?

Did the class learn anything new?

[15%] 2. Question Period

Answer questions from class about your presentation

Ability to answer questions / understanding of material

[10%] 3. Hardcopy Presentation

Provide hardcopy of your power point slides + reference list.
